THIS Company is one of the oldest, and among the most prudently and successfully conducted in the country. The primary object in conducting its business has been to provide perfect security under all conceivable circumstances, for the payment of its losses under its policies, and to return to the insured the surplus at stated periods, and strict economy is observed.

Every insured person is a member of the company and shures in the profits of the business, and is subject to no liability or assessments beyond his premium.

The directors are required to be pecuniarly interested in the company, and they give it their personal attention; and bonds of sufficient security are given by its officers for the faithful performance of their duties. Insurance may be effected for the benefit of the wife, which is secured to her by law beyond the reach of a husband's creditors; and creditors may insure the lives of debtors.

#### THE MADISON MUTUAL. LOCATED AT MADISON, WISCONSIN.

THIS Company continues to take risks upon Furm Property continues to take risks thom Furm Property only, consisting of buildings of all nds, (belonging to farmers,) bousehold furniture, grain barns, live stock, &c., from one to five years, at low-rates than most other responsible companies.

All losses promptly paid at the office as soon as proof made thereon.

Is made thereon.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses only your own of the same class, and all will be on an equal footing.

Experience has shown that two-thirds, if not three-fourths of all the fires that occur are upon stores, tayerna, mills, shops and such like property. In this company all such property is rejected restrively, by letting the shows.

O THEM ALONE Farmers, look to your own interest, and insure in a

armers' Company.
We have been doing business a little over three years. we have been flying distincts a fine-over time years, and we have not been obliged to assess our premium notes, and for the last four-tern months we have not had a single dollar losa, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.

### 17th SENATORIAL DISTRICT CON-

At the same time and place above designated in the respective towns and wards for meetings, to choose delegates to the county convention, the Republican electors of the wards of the city of Janesville, and of the towns in this county comprised in the 17th senatorial district, are requested to select an equal number of delegates to which they are entitled under the above appointment in the county convention, to represent them in a senatorial convention hereby called at the Court House in Janesville, on THURSDAY the 12th day of October next at 11 o'clock, A. M., to nominate a candidate for senator.

By order of the County Committee.

Congressional Convention --- Second

The electors of the second congressional district of Wisconsin, comprising the counties of Rock, Green, Dane, Iowa, Lafayette, Grant, Richland, Sauk, Adams Portage, Marathon, Crawford, Bad Ax, La Crosse, Monroe, Polk, Pierce, Trempe a'leau, Elk, Chippewa, Clark, Dunn, Buffalo, St. Croix, Douglass and La Pointe, who are opposed to the Nebraska iniquity, and in favor of the principles announced in the "REPUBLICAN" platform, adopted at Madison July 18th, are invited to meet in their respective assembly districts and select two delegates from each to represent them in a congressional convention to be held at Mineral Point on Wednesday, the 18th of September, at 12 o'clock M., to nominate a candidate to be supported at the approachng election. By order of the state central committe, WM. A. WHITE, Chairman.

MINERAL POINT CONVENTION .- We have no other report of the proceedings of this convention than that brought by the delegates from this city. From them we learn that Dr. Mitchell, who was presented and steadily voted for by this county, withdrew his name immediately upon the adoption of the resolutions, and that Mr. Eastman also withdrew his after trying the fate of another ballot, and finding himself losing ground. When a full report of the proceedings reach us, we shall give them, or such portions as will be necessary to understand them .-Meanwhile, the convention has our thanks for making the issue in this district a definite one, and boldly avowing the ground upon which it is to be contested.

The whig congressional convention in E. B. Washburne's district, Ills., re-nominated him, and adopted resolutions nearly identical with the Rockford convention.

The democratic convention for the first district in this state has been called to meet on the 4th of October at Mukwanago.

WISCONSIN CATTLE .-- The N. Y. Eve. Post of the 4th inst. says:

A MANIFESTO COMING !- The Madison correspondent of the News gives us the following bit of political intelligence:

I am informed from an entirely reliable source that the governor and his special friends in the state administration, are preparing, and will soon publish a manifesto, taking ground against the national administration, the Nebraska bill, &c.; the move seems to me not to be well-timed or called for, and the effect in the approaching election can not be advantageous to the democratic party. It is calculated that four of the state officers, known as Mr. Barstow's particular friends, will sign it.

Mr. David Taylor, the independent, anti-Nebraska, anti-convention, democratic candidate for congress in this district, addressed a portion of our citizens at the court house, on Saturday evening last. His views on most of the questions of the day are at variance with those of Russians. the leaders of the party to which he has here-tofore belonged. WHERE IS BOMARSUND ?- Our readers will inquire, after reading the war-like operations in Bomeraund, where this fortress is.

Between Sweden and Finland, about mid-way in the Gulf of Bothnia, lies a cluster of islands. some inhabited and some not, numbering two or three bundred, called Aland Island. The main one bearing the same name, has some nine thousand inhabitants, and is 40 miles long by 30 broad. In 1789 these islands were made over to Russia by Sweden, and here being fine harbors where the navigation remains open late and the ice breaks up early, is the principal rendezvous of Russian fleets. On this largest island stands the fortress of Bomarsund. Of this fortress the London Times says:

"It has been constructed by the Russians within the last 20 years, and it is here the French army of the Baltic, supported by the marines of the British fleet, is now engaged in the first important operation of the war. The fortress itself is said to be large enough to shel-ter an army of 0,000 men within the range of THURSDAY, the 12th day of October next, at 2 o'clock its guns, and we are assured that 10,000 laborers were employed in the construction of the works during that portion of the year when it is possible to build in so severe a climate.

The principal fortress consists of a double tier of semi-circular casemented batteries fronting the sea, mounting at least 80 heavy guns, but this fort does not appear to be armed on the side of the land. At a distance of about 1,000 yards from the principal fortress, and from the shore, are three mounds or hillocks, two of which are fortified as detached works, mounting about 20 guns each. That to the north, is called Fort Nottich and is 130 feet high; that to the south is called Tzee Fort. The central mound is used for a telegraph station."

THE CAPTURE OF BONARSUND BY THE ANGLO-FRENCH FORCES .- On Monday 7th August, Admiral Sir C. Napier hoisted his flag in H. M.'s steam frigate Bulldog, Capt. Hall, and went up to Bomarsund. On Tuesday Sth, the troops landed-all the boats of the division before Bomarsund were employed in this service. The operation commenced at daybreak, and was successfully conducted. No opposition was offered by the Russian troops, although the locality was very favorable, as a position for riflemen. H. M. ship Amphion, Capt. Key, attacked and destroyed a small battery mounting six guns; the guns were destroyed by the fire of the frigate, and the Russians retreated to the principal fort. On the same day, the Bulldog, Capt. Hall, with the Admiral on board, and the Stromboli, tried the range of their guns on the round tower .-While thus employed the Bulldog got on shore; she was got off in about four hours, by the assistance of the Amphion and Vulture.

On Wednesday, the 9th ult., stores were land-In the evening a detachment of Russian soldiers was observed in Presto channel. Some boats endeavored to take them. The Russians made their escape, leaving five or six small boats in the hands of the English. The Bulldog and the Gladiator, hearing the firing, ran down, but did not arrive in time to attack the Russians. In passing Bomarsund the steamers were fired at by the forts. The same day the English marines were landed.

Thursday, 10th .- Guns and heavy stores were landed. On this day her majesty's ship Pene- had left the spot a few minutes before the dislope, Capt. Coffin, ran into a rock within range of the guns of Bomarsund. Hecla, Gladiator and Pigmy went in to her assistance, opened fire on Bomarsund. Two Frenchmen were killed in boats alongside. The Penelope threw her guns overboard, and after two hours and a half got off, with considerable damage. The forts fired red hot shots. One of these passed through the midshipmen's berth.

Friday, 11th, and Saturday, 12th .- Setting guns into position and erecting batteries on

Saturday 12th.—The French guns commenced firing at Tree fort at 4 A. M. and at 4 30 P. M. the fort showed a flag of truce. Firing ceased. Monday morning.-Tzee fort surrendered to the French. The number of killed and wounded is estimated at about 30, but has not been ascertained. In the English camp a marine, lying down in a tent, was struck by a cannon ball, which fell upon his chest, crust ed and killed him. One marine severely wounded .-There were many very narrow escapes. The ground was ploughed up in all directions by shot and shells, and it appears almost miraculous that so few casualties occurred among the English and French. The rifle practice of the French chasseurs was admirable. After the Tzee fort had surrendered it was the object of great curiosity. The sides of the embrasures, and the opposite walls, were thickly dotted with luck provided a substitute. The English ships Edinburgh, Ajax, Amphion, Bull-Dog, Valorous, Hecla and Driver, and the French ships Duperre, Trident, Darien, Asmodee and Phlegeton, continued firing at at the sea face of the principal fort of Bomarsund, while at the same time the French field and mortar batteries poured an incessant fire on the rear, and an English 8 inch gun on the cap- out. tured six gun battery maintained an excellent of her infant, about three months old, which flanking fire.

THE ERIE AND KALAMAZOO BANK .- Having from time to time advised our readers, that the Erie and Kalamazoo railroad bank was as much entitled to confidence and credit, as any in the state, or elsewhere, and having defended its reputation from the assaults and slander of those who have, as we believe, assailed it for selfish and local consideration-we feel a pride which will be excused in reiterating our assurances as to the ability and soundness of this institution, to all whom it may concern.

The bank has since the commencement of the 'run" upon it, redcemed about one-half of its entire circulation, and has not ceased a single hour during the whole period, to pay coin for its notes at its counter; and had the panic continued, they were prepared and determined at any cost and at any sacrifice to take in every dollar of their liabilities.

We confess to some astonishment, with all our faith in its ability, that the bank has been able ender these circumstances, to withstand so triamphantly, such enormous drafts upon its vaults without notice, or time to prepare for the storm which has passed over them. It vindicates both its soundness and the integrity of its managers. It has been tried by fire and comes out

pure gold. The officers, in this trial, have proved themselves equal to their duties and their task .-They have proved that the confidence placed in them by the public has been merited-any risk of their honor and their private fortunes—that they have high regard for their reputation as men, as well as for their moral obligations to the community. They have established the fact that their career will be honorable, however dark the night, by making sacrifices of money, toil and personal comfort, that no dishonor might attach to their institution, and that the community should be saved from loss .- Adrian Watchtower, 4th.

TREASURE DISCOVERED--The New York Times says that while some workmen in the employ of George Gibson, contractor, were removeing some earth at Harlem, N. Y., on land belonging formerly to Samuel Benson, deceased, they came to a box of Spanish dollars, which contained some 2,000 or 3,000, which were deposited there under the following circumstances: Samuel Benson, great grandfather to the late owner of the estate, unwilling to carry so much money with him to the mountains of Fishkill, whither he was gone during the days of the revolution, deposited the same for safe keeping, and planted over it a small fruit tree as a mark of the place of deposit, leaving his entire farm in charge of his slaves, his wife alone being acquainted with his secret. The tree soon dving was removed by a faithful old negro servant named Tom, and the ground worked as usual. When peace was declared and Mr. Benson and family returned to his farm greatly to his chagrin he found the tree removed, and the burial place

lost to his memory.

The workmen who found this deposit filled their pockets, left their employer, and since have not been heard of. They were two Dutchmen and three Irishmen. Contractor Gibson

has received a copy of the "Bomb Shell," a newspaper published at Fort Ripley. The Democrat gives the following account of the sheet: To the eyes, it is an uncouth, ill-printed,

muddy-looking sheet, and every letter in it is larger than those in a child's primer—but all these drawbacks are more than compensated for, by the knowledge that all the letters and furniture used in setting up the paper, were made by one of the soldiers in the fort, his principal tool to work with, being a small pocket knife. Those who know how necessary it is to accurately square and level types, to make them serviceable at all, will readily agree with us that this is a wonderful exercise of skill, patience, and ingenuity. Moreover, the press upon which the paper is printed, is from the same ingenious hands, and altogether, the "Bomb Shell" may well claim to be one, if not the first, in rank of the newspaper enterprises of the day.

A BOVINE DEMONSTRATION.—The announce ment of Douglas' second meeting drew together quite a large assemblage in the park yesterday afternoon. They were, of course, much disap-pointed at finding that Douglas did not make his appearance, but fortunately Providence or pened to stray into the enclosure, and shortly after made his appearance upon the platform. He was immediately recognized by the crowd as Tuesday.-The English field and breaching an authentic and accredited representative of batteries opened fire on Nottich fort, which was the missing senator, and was received by them rassed for words, but upon his tail being sharply pulled, soon gave vent to his feelings in a natural and expressive manner. The incident afforded much mirth to the crowd who witnessed it .- Chicago Tribune, -th.

> SOMNAMBULISM .- An instance of somnambulism occurred in this village, a short time since, worth reporting. It appears that a certain Mrs. had for some time been troubled with her favorite cat, which was in the habit of crawling into the window after the family had retired to rest, and taking lodgings with the balance of them. One night the good lady, in a fit of somnambulism, fancied that she felt the cat in bed. She carefully secured it around the waist, and went to the window and threw it Soon after she was awakened by the cries she had thrown out into the garden instead of the cat .- Wau. Plaindealer.

AN IMPORTANT MOVEMENT, -We have recent ly learned that the question of a meeting of western bankers for the purpose of considering those subjects in which they have a mutual interest, has been mooted for some time past, and that there is now every reason for supposing such a meeting will very shortly be held. We are glad to record the fact, because we are confident that it cannot result otherwise than in greatly promoting and forwarding the interests of the west, and in hastening prward the day when Wall street supremacy will yield the palm to that of another great financial centre, established somewhere near the heart of the Mississippi valley. Under existing circumstances our western banks may, with very few exceptions, be regarded as mere appendages to New York and New England. A connected chain of cause and effect, which can easily be traced up from its beginning, has very naturally led to this result .- Chicago Press.

THE COURT HOUSE BELL .- Many were surprised and at a loss for the reason why this bell should be kept ringing nearly forty minutes last evening, between the hours of 7 and 8 o'clock, and while Mr. Giddings was speaking in Dearborn park. It was generally thought that it was set to work to create an alarm of fire, and thus scatter the multitude who were listening to Mr. Giddings., and many took occasion to censure the authorities for allowing it to be used for such a purpose. We are, however, informed that it was rung for the amusement of Mayor Millikin, who was out on the prairie, listening to it! Wonder if that bell had'nt better be named "Milliken's pet."-Chicago Tribune.

POST OFFICE GYMNASTICS.—A correspondent of the St. Louis Herald writing from Mineral Point, Wis., says:

The mail leaves St. Louis for this place, it is opened at Chicago, then sent to Milwaukee, then to Monroe then to Dubuque, then to Mineral Point, then to Darlington, then to Centre, ma- ance at 71/2 king a circuit of several hundred miles, and requiring some eight or nine days to accomplish the journey, when it might be done in 32 hours; viz: from St. Louis to Chicago, 14 hours; from Chicago to Warren, 12; and from Warren to Darlington in six hours.

DISINFECTING LAMP.—The following simple and economical apparatus is the best we are acquainted with for purifying rooms where any unpleasant effluvia prevails. Any person can fit up the lamp, and, as it is an agreeable method of overcoming bad odors in a sick room, we have no doubt it will be generally adopted .-Take one of any of the various kinds of glass lamps-for burning camphene, for exampleand fill it with chloric ether, and light the wick. In a few minutes, the object will be accomplished. In the dissecting-room-in the damp and deep vaults where vegetables are sometimes stored, or drains allow the escape of offensive gases, in outbuildings, and, in short, in any spot where it is desirable to purify the atmosphere, burn one of these lamps. One tube, charged with a wick, is quite sufficient.—Home Gazette.

WHAT A MOWING MACHINE CAN DO .- As being a great week's work, the Springfield Republican states, that captain Parsons, of Northampton, cut, made, and put into his barn, 62 loads of hay during the first week of July, commen-cing on the third, besides mowing for others to the amount of \$40 in the same time. The whole was accomplished with what would be equivalent to the labor of one man, or only 38 days .-He mowed in one day, and in less than 9 hours, 11 acres, producing from two to two and a half tons per acre.

RAILROAD STOCKS .- Erie railroad shares sold in Wall street on Saturday as low as 29. Hudson River railroad sold at 36; New York Central 86; Cleveland and Toledo 681; Michigan Central s4, and Illinois Central railroad bonds

More Loconotives .- Brig Empire State, arrived from Buffalo this morning, brought up two splendid locomotives from the Schenectady works, for the Mil. & Miss. railroad. Their names are the J. Letcher and F. B. Cutting, a compliment to two members of congress, who opposed the Rock River Valley road grant .-

### Something New!!

MR. CHARLES AUSTIN, the cele-MR. CHARLES AUSTIN, the celebrated Reed maker has just completed his new Organ Reed, upon which he has labored for the last five years and expended more than six thousand dollars. This reed is different from all others in its composition, being much larger and having more power. It is intended for Church and Parlor Organs as manufactured by Messrs. Austin & Co. These Organs have an upright (Organ) action and are of the shape of all Church Organs. The price will range from \$175 to \$300, depending upon the finish of the case. To churches in want of an instrument of that value we would say es in want of an instrument of that value we would say that they have more power than any common Organ

costing, \$500.

J. F. Pease & Co., Janesville Wis., are interested in the manufacture and sale of these instruments, and are the only persons through whom they can be had. They will have one or more for exhibition as early as Sept. 10, and after that a good assortment as soon as

they can be manufactured.

HIS Company is one of the oldest, and among the most prudently and successfully conducted in the country. The primary object in conducting its business has been to provide perfect secured, under all concelvable circumstances, for the payment of its losses under its policies, and to return to the insured the surplus at stated periods, and strict economy is observed.

Every insured person is a member of the company and shares in the profits of the business, and is subject to no liability or assessments beyond his premium.

The directors are required to be pecuniarly interested in the company, and they give it their personal attention; and bonds of sufficient security are given by its officers for the faithful performance of their duties. Highly Important to Farmers. THE ONLY EXCLUSIVE FARMERS' INSURANCE COMPANY IN THE WEST, THE WALDESON MUTTEDAY.

LOCATED AT MADISON, WISCONSIN. THIS Company continues to take risks upor

THIS Company continues to take tisks upon Farm Property only, consisting of buildings of all kinds, the longing to farmers, household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible companies.

All losses promptly paid at the office as soon as proof is made thereon.

We believe it to be for the interest of the farmers to insure by thomselves, their property being less lineardous than any other, consequently you will have no losses only your ewn of the same class, and all will be on an equal footing.

Experience has shown that two-thirds, if not three-fourths of all the fires that occur are upon stores, tay.

courts of all the fires that occur are upon stores, tay-erns, mills, shops and such like property. In this com-pany all such property is rejected Positively, by LEIring them alone.

Farmers, look to your own interest, and insure in a Farmers' Company.
We have been doing business a little over three years,

and we have not been obliged to assess our premium notes, and for the last fourteen months we have not had a single dollar loss, though doing a large and prosperous business, which we believe to be without a parallel in the listory of insurance. The best of references given as to the responsibility of the company.

### ROCK COUNTY REPUBLICAN CON-VENTION.

The electors of Rock county who are determined to support no man for office who is not positively and fully committed to the support of the principles announced in the "Kepublican Platform" adopted at Madison on the 13th of July last, and whose personal character, political associations and private conduct, do not afford a guarantee that he is reliable, are invited to meet in their respective townships or wards at the place of holding the last township or ward election, on Tuesday the 10th day of October next, at 2 o'clock P. M. for the purpose of effecting a thorough organisation of the Republican party in their towns or wards, and of appointing delegates to a county convention hereby called at the Court House in Janesville, on THURSDAY, the 12th day of October next, at 2 o'clock P. M., to nominate a county ticket. The towns and wards will be entitled to representa-

### 17th SENATORIAL DISTRICT CON-VENTION.

At the same time and place above designated in the respective towns and wards for meetings, to choose delegates to the county convention, the Republican electors of the wards of the city of Janesville, and of the towns in this county comprised in the 17th senatorial district, are requested to select an equal number of delegates to which they are entitled under the above appointment in the county convention, to represent them in a senatorial convention hereby called at the Court House in Janesville, on THURSDAY the 12th day of October next at 11 o'clock, A. M., to nominate a candidate for senator. By order of the County Committee.

#### Congressional Convention \*\*\* Second District. The electors of the second congressional district of

Wisconsin, comprising the counties of Rock, Green, Dane, Iowa, Lafaycite, Grant, Richland, Sauk, Adams, Portage, Marathon, Crawford, Bad Ax, La Crosse, Monroe, Polk, Pierce, Trempe a'leau, Elk, Chippewa, Clark, Dunn, Buffalo, St. Croix, Douglass and La Pointe, who are opposed to the Nebraska iniquity, and in favor of the principles appounced in the "REPUBLICAN" platform, adopted at Madison July 18th, are invited to meet in their respective assembly districts and select two delegates from each to represent them in a congressional convention to be held at Mineral Point on Wednesday, the 18th of September, at 12 o'clock M., to nominate a candidate to be supported at the approaching election. By order of the state central committe, WM. A. WHITE, Chairman.

Madison, August 14.

MINERAL POINT CONVENTION .- We have no other report of the proceedings of this convention than that brought by the delegates from this city. From them we learn that Dr. Mitchell, who was presented and steadily voted for by this county, withdrew his name immediately upon the adoption of the resolutions, and that Mr. Eastman also withdrew his after trying the fate of another ballot, and finding himself losing ground. When a full report of the proceedings reach us, we shall give them, or such portions as will be necessary to understand them .-Meanwhile, the convention has our thanks for making the issue in this district a definite one, and boldly avowing the ground upon which it is to be contested.

The whig congressional convention in E. B. Washburne's district, Ills., re-nominated him, and adopted resolutions nearly identical with the Rockford convention.

The democratic convention for the first district in this state has been called to meet on the 4th of October at Mukwanago.

A MANIFESTO COMING !- The Madison correspondent of the News gives us the following bit of political intelligence:

I am informed from an entirely reliable source that the governor and his special friends in the state administration, are preparing, and will soon publish a manifesto, taking ground against the national administration, the Nebraska bill, &c.: the move seems to me not to be well-timed or called for, and the effect in the approaching election can not be advantageous to the demo-cratic party. It is calculated that four of the state officers, known as Mr. Barstow's particular friends, will sign it.

Mr. David Taylor, the independent, anti-Nebraska, anti-convention, democratic candidate for congress in this district, addressed a portion of our citizens at the court house, on Saturday evening last. His views on most of the questions of the day are at variance with those of the leaders of the party to which he has here-tofore belonged. Mr. Taylor understands the working of democratic conventions to perfecaion, and told some plain truths about them, as could easily be shown by recent demonstrations in this place. We think, however, he will find Taylor men less numerous than he anticipates on the day of election .- Mineral Point Trir-

quire, after reading the war-like operations in the Baltic, and the capture of the fortress of

Bomersund, where this forcess is,
... Between Sweden and Finland, about mid-way in the Gulf of Bothnia, lies a cluster of islands, some inhabited and some not, numbering two or three hundred called Aland Island. main one bearing the same name, has some nine thousand inhabitants, and is 40 miles long by 30 broad. In 1789 these islands were made over to Russia by Sweden, and here being fine harbors where the navigation remains open late and the ice breaks up early, is the principal rendezvous of Russian fleets. On this largest island stands the fortress of Bomsrsund. Of this fortress the Loudon Times says:

"It has been constructed by the Russians within the last 20 years, and it is here the Baltic, supported by the marines of the British fleet, is now engaged in the first important operation of the war. fortress itself is said to be large enough to shelter an army of +0,000 men within the range of its guns, and we are assured that 10,000 laborers were employed in the construction of the works during that portion of the year when it is

possible to build in so severe a climate.

The principal fortress consists of a double tier of semi-circular ensemented hatteries fronting the sea, mounting at least 80 heavy guns, but this fort does not appear to be armed on the side of the land. At a distance of about 1,000 vards from the principal fortress, and from the shore, are three mounds or billocks, two of which are fortified as detached works, mounting about 20 That to the north, is called Fort Nottich and is 130 feet high; that to the south is called Tree Fort. The central mound is used for a telegraph station."

THE CAPTURE OF BOMARSUND BY THE ANGLO-FRENCH FORCES.—On Monday 7th August, Admiral Sir C. Napier hoisted his flag in H. M.'s steam frigate Bulldog, Capt. Hall, and went up to Bomarsund. On Tuesday 8th, the troops landed-all the boats of the division before Bomarsund were employed in this service. The operation commenced at daybreak, and was successfully conducted. No opposition was offered by the Russian troops, although the locality was very favorable, as a position for riflemen. M. ship Amphion, Capt. Key, attacked and destroyed a small battery mounting six guns; the guns were destroyed by the fire of the frigate. and the Russians retreated to the principal fort. On the same day, the Bulldog, Caps. Hall, with the Admiral on board, and the Stromboli, tried the range of their guns on the round tower.-While thus employed the Bulldog got on shore; she was got off in about four hours, by the assistance of the Amphion and Vulture.

On Wednesday, the 9th ult., stores were landed. In the evening a detachment of Russian soldiers was observed in Presto channel. Some boats endeavored to take them. The Russians made their escape, leaving five or six small boats in the bands of the English. The Bulldog and the Gladiator, hearing the firing, ran down, but did not arrive in time to attack the Russians. In passing Bomarsund the steamers were fired at by the forts. The same day the English marines were landed.

Thursday, 10th. -Guns and heavy stores were landed. On this day her majesty's ship Penelope, Capt. Coffin, ran into a rock within range of the gans of Bomarsand. Hecla, Gladiator and Pigmy went in to her assistance, opened Bomarsund. Two Frenchmen killed in boats alongside. The Penclope threw her guns overboard, and after two hours and a got off, with considerable damage. The forts fired red hot shots. One of these passed through the midshipmen's berth.

Friday, 11th, and Saturday, 12th.—Setting guns into position and erecting batteries on

Saturday 12th.—The French guns commenced firing at Tzee fort at 4 A. M. and at 4 30 P. M. the fort showed a flag of truce. Firing ceased, Monday morning.—Tree fort surrendered to the French. The number of killed and wounded is estimated at about 30, but has not been ascertained. In the English camp a marine, lying down in a tent, was struck by a cannon which fell upon his chest, crusted and killed him. One marine severely wounded. There were many very narrow escapes. The ground was ploughed up in all directions by shot and shells, and it appears almost miraculous that so few casualties occurred among the English and French. The rifle practice of the French chasseurs was admirable. After the Tzee fort had surrendered it was the object of great curiosity. The sides of the embrasures, and the opposite walls, were thickly dotted with marks made by the rifle balls, which made it impossible for a Russian to show himself and

escape a wound: breached by 3 o'clock P. M., and it surrendered in the evening. During the attack, lieutenant sented. His calf-ship was at first rather embarin the evening. During the attack, lieutenant Wrottesley, R. E., was killed. He was stooping down in obedience to signal, when a shot, after striking the trunion of one of the guns, bounded against him, inflicting a dreadful wound. His side was crushed, and his hands, which were folded together at the time, were torn to pieces-he died very soon afterward. In this fort there were five killed and six or seven wounded, and 125 prisoners. Capt. Rainsay slightly wounded.

The English ships Edinburgh, Ajax, Amphion, Bull-Dog, Valorous, Heela and Driver, and the French ships Duperre, Trident, Darien, Asmodee and Phlegeton, continued firing at at the sea face of the principal fort of Bomflanking fire.

The captured fort of Tzee blew up about 1 P. M. Some doubt appears to exist whether the explosion was caused by the French or the Russians.

On Wednesday, 16th, the French batteries advanced considerably nearer to the land face of the fort, and kept up incessant fire; the beavy guns in the six-run hattery served by the Engish under Captain Pelham did great execution the large blocks of granite that formed the face of the fort, and which in appearance formed an immense resistance, fell out in masses, and rubble with which the wall filled in tumbled out in heaps. The Edinburgh, the Ajax and the steamers fired at long range on the Bomarsund fortress, while at the same time the Leopard attacked the fort of Presto, on the other side of

the narrow channel. At 12 30 a flag of truce was held out at an embrasure of Bomarsund, toward the fleet; a

WHERE IS BOMARSUND?-Our readers will in- priest to the officer in command of Presto fort, with orders to surrender. The order was obey-ed. Thus the four forts of Bomarsund fell into the possession of the allies.

THE ERIE AND KALAMAZOO BARK.-Having from time to time advised our readers, that the Erie and Kalamazoo railroad bank was as much entitled to confidence and credit, as any in the state, or elsewhere, and having defended its reputation from the assaults and slander of those rho have, as we believe, assailed it for selfish and local consideration-we feel a pride which will be excused in reiterating our assurances as to the ability and soundness of this institution to all whom it may concern.

The bank has since the commencement of the "run" upon it, redcemed about one-half of its entire circulation, and has not ceased a single hour during the whole period, to pay coin for its notes at its counter; and had the panic continued, they were prepared and determined at any cost and at any sacrifice to take in every dollar of their liabilities.

We confess to some astonishment, with all our faith in its ability, that the bank has been able ender these circumstances, to withstand so tri-umphantly, such enormous drafts upon its vaults without notice, or time to prepare for the storm which has passed over them. It vindicates both its soundness and the integrity of its managers. It has been tried by fire and comes out

The officers, in this trial, have proved them-selves equal to their duties and their task.— They have proved that the confidence placed in them by the public has been merited—any risk of their honor and their private fortunes-that they have high regard for their reputation as men, as well as for their moral obligations to the community. They have established the fact that their career will be honorable, however dark the night, by making sacrifices of money, toil and personal comfort, that no dishono might attach to their institution, and that the community should be saved from loss .- Adrian Watchtower, 4th.

TREASURE DISCOVERED-The New York Times says that while some workmen in the employ of George Gibson, contractor, were remove ing some earth at Hariem, N. Y., on land belong ing formerly to Samuel Benson, deceased, they came to a box of Spanish dollars, which contain ed some 2,000 or 3,000, which were deposited there under the following circumstances: Samuel Benson, great grandfather to the late owner of the estate, unwilling to carry so much money with him to the mountains of Fishkill, whither he was gone during the days of the revolution, deposited the same for safe keeping, and planted over it a small fruit tree as a mark of the place of deposit, leaving his entire farm in charge of his slaves, his wife alone being acquainted The tree soon dying was rewith his secret. moved by a faithful old negro servant named Tom, and the ground worked as usual. When peace was declared and Mr. Benson and family returned to his farm greatly to his chagrin be found the tree removed, and the burial place

lost to his memory.

The workmen who found this deposit filled their pockets, left their employer, and since have not been heard of. They were two Dutchmen and three Irishmen. Contractor Gibson had left the spot a few minutes before the discovery.

A CURIOSITY --- A PRINTING ESTABLISHMENT MADE BY A SOLDIER.—The Minnesota Democrat has received a copy of the "Bomb Shell," a newspaper published at Fort Ripley. The Democrat gives the following account of the sheet:

To the eyes, it is an uncouth, ill-printed, muddy-looking sheet, and every letter in it is larger than those in a child's primer—but all these drawbacks are more than compensated for, by the knowledge that all the letters and furniture used in setting up the paper, were made by one of the soldiers in the fort, his principal tool to work with, being a small pocket knife. Those who know how necessary it is to accurately square and level types, to make them serviceable at all, will readily agree with us that this is a wonderful exercise of skill, patience, and ingenuity. Moreover, the press upon which the paper is printed, is from the same ingenious and altogether, the "Bomb Shell" may well claim to be one, if not the first, in rank of the newspaper enterprises of the day.

A BOVINE DEMONSTRATION .- The announce ment of Douglas' second meeting drew together quite a large assemblage in the park yesterday They were, of course, much disappointed at finding that Douglas did not make is appearance, but fortunately Providence or luck provided a substitute. A stray calf hap-pened to stray into the enclosure, and shortly after made his appearance upon the platform. He was immediately recognized by the crowd as Tuesday.—The English field and breaching an authentic and accredited representative of rassed for words, but upon his tail being sharp ly pulled, soon gave vent to his feelings in natural and expressive manner. The incident afforded much mirth to the crowd who witness ed it.-Chicago Tribuue, .th.

SOMNAMBULISM .- An instance of somnambu ism occurred in this village, a short time since worth reporting. It appears that a certain Mrs had for some time been troubled with her favorite cat, which was in the habit of crawling into the window after the family had retired to rest, and taking lodgings with the balance of them. One night the good lady, in a fit of somnambulism, fancied that she felt the arsund, while at the same time the French field cat in bed. She carefully secured it around the and mortar battories poured an incessant fire on waist, and went to the window and threw it the rear, and an English 8 inch gun on the capout. Soon after she was awakened by the cries waist, and went to the window and threw it tured six gun battery maintained an excellent | of her infant, about three months old, which she had thrown out into the garden instead of the cat .- Wau. > The Boston Post is in perfect eestacy at the way the democracy "are putting it" to their op-ponents in Yates' and Richardson's districts in this state.

> This reminds us of a story of a man and his little son who came across a woodchuck borough into which their little dog forthwith ran. 'animile" being somewhat stirred up, forthwith seized the dog by the nose, who made a prodigious outery.

"There," says the boy in perfect ecstacy, "Charm has got him!" "Ah, no, my son," replied the father, "he has got Charm!"—Chicago Journal.

A HARD HIT .- About the hardest hit we have seen is the following, which is contained in John Mitchel's recent letter to arch-bishop Hughes: embrasure of Bomarsund, toward the fleet; a boat with an officer was sent on shore, and at about half past twelve the governor surrendered.

General Bodisco is an old man, apparently popes, have held slaves? Yet it is not wonderful that you should not covet a plantation in the south so long as you possess that enviable piece of property, the Calvary cemetry, where, I see ried last week at a fee of EIVE DOLLARS per corpse to you. I wish your grace joy. I shall be almost tempted, instead of a well stocked ance could have done more than cause a useless plantation in Alabama, to wish for a well peoples of life. The Russian general then sent a pled grave yard on Long Island."

AN IMPORTANT MOVEMENT .- We have recently learned that the question of a meeting of western bankers for the purpose of considering those subjects in which they have a mutual in terest, has been mooted for some time past, and that there is now every reason for supposing such a meeting will very shortly be held. are glad to record the fact, because we are confident that it cannot result otherwise than in greatly promoting and forwarding the interests of the west, and in hastening trward the day when Wall street supremacy will yield the palm to that of another great financial centre, estab lished somewhere near the heart of the Missis sippi valley. Under existing circumstances our western banks may, with very few exceptions, be regarded as mere appendages to New York and New England. A connected chain of cause and effect, which can easily be traced up from its beginning, has very naturally led to this re sult.—Chicago Press.

THE COURT HOUSE BELL .- Many were sur prised and at a loss for the reason why this bell should be kept ringing nearly forty minutes last evening, between the bours of 7 and 8 o'clock, and while Mr. Giddings was speaking in Dear. born park. It was generally thought that it was set to work to create an alarm of fire, and thus scatter the multitude who were listening to Mr. Giddings, and many took occasion to censure the authorities for allowing it to be used for such a purpose. We are, however, informed that it was rung for the amusement of Mayor Millikin, who was out on the prairie, listening to it! Wonder if that bell had'nt better be named "Milliken's pet."—Chicago Tribune.

POST OFFICE GYMNASTICS .- A correspondent of the St. Louis Herald writing from Mineral Point, Wis., says:

The mail leaves St. Louis for this place, it is opened at Chicago, then sent to Milwaukee, then to Monroe then to Dubuque, then to Mineral Point, then to Darlington, then to Centre, making a circuit of several hundred miles, and re quiring some eight or nine days to accomplish the journey, when it might be done in 32 hours; viz: from St. Louis to Chicago, 14 hours; from Chicago to Warren, 12; and from Warren to

DISINFECTING LAMP .- The following simple and economical apparatus is the best we are acquainted with for purifying rooms where any unpleasant effluvia prevails. Any person can up the lamp, and, as it is an agreeable method of overcoming had odors in a sick room, we have no doubt it will be generally adopted.— Take one of any of the various kinds of glass -for burning camphene, for example lainpsand fill it with chloric ether, and light the wick In a few minutes, the object will be accomplish ed. In the dissecting room—in the damp and deep vaults where vegetables are sometimes stored, or drains allow the escape of offensive gases, in outbuildings, and, in short, in any spot where it is desirable to purify the atmosphere, burn one of these lamps. One tube, charged with a wick, is quite sufficient .- Home Gazette.

If you desire to be certain that your eggs are ood and fresh, put them in water. If they lay first on their sides they are good, beyond doubt. If the butt turns up they are not fresh. an infallible rule to distinguish a good from a bad egg.

It is said that the citizens of Bloomington Ind., have to go nine miles for water. What a lovely time the firemen of that place would have in case of a rousing fire.

WHAT A MOWING MACHINE CAN DO.-As be ing a great week's work, the Springfield Republican states, that captain Parsons, of Northampton, cut, made, and put into his barn, 62 loads of hay during the first week of July, commencing on the third, besides mowing for others to the amount of \$40 in the same time. The whole was accomplished with what would be equivalent to the labor of one man, or only 38 days .-He moved in one day, and in less than 9 hours. 11 acres, producing from two to two and a half tons per acre.

RAILROAD STOCKS .- Erie railroad shares sold in Wall street on Saturday as low as 29. Hudson River railroad sold at 36; New York Central 86; Cleveland and Toledo 684; Michigan Central :4, and Illinois Central railroad bonds at 66.

More Locomorives .- Brig Empire State, arrived from Buffalo this morning, brought up two splendid locomotives from the Schenectady works, for the Mil. & Miss. railroad. Thei names are the J. Some of the Catholic priests in Chicago attempted recently to procure the indictment of T. A. Stewart, editor of the Chicago Tribune, for his exposures of their intrigues and intermedling in the politics in the city, &c. Some very grave charges were published against the reverend gentleman, but fortunately, Mr. Stewart was provided with the proof, hence the fail ure of the jury to find a bill against him .- Mt Carol Republican.

DENIES IT .- The Buffalo Democracy having spoken of div ne providence as "afflicting" the spoken of divide providence as "amicting" the country with the present administration, the Oneid a Sachem indignantly denies that the "divine providence" had anything to do with it. KIER'S ROCK OIL. ROM a Well 400 feet deep, Near Pittsburgh Pa., is offered to the public as a Natural Medicine of no common value. It is a different thing from the old Kentucky or American Oil, as this is used INTERNALLY as well as externally. As a local remedy in Paralysis, Piles, Rheumatism, Peainess, Loss of Sight, Burns, &c.—also, as a valuable Internal Remedy for Piles, Ague, Scrofula, Coughs, Diarrhoea, Erysipelas, old Sores, Eruptions of the Skin, Female Diseases, Worms, Bladder and Kidneys, Bronchitis, Pains &c. &c., it invites the investigating Physician, as well as the suffering patient, to become acquainted with its merits.

Discovered in 1849, it has within 2 or 8 years, made multitudes of cures, and multitudes of friends—and as soon as tried the Sales not only increase but hold out. Testimony to its great merit is constantly accumulating in the hands of the proprietor by certificates, letters,

and in other ways.

IT DOCTORS THE WHOLE MAN—ficsh and blood—skin and bones—from head to foot—how it acts upon the system—upon diseases of different manifestations, tringent, it is Alterative—and mind you, a REGULATOR. A leading principle in it is Naptha. When you once have it in the family you will not be without it.

Full as the world is of Patent Medicines—it is thought not best to suppress this, the work of NATURE—to make room for Human invarious. make room for Human inventions. Price 50 cents per bottle. It can be had of wholesalers at the large cities and towns in the West at Proprietor's prices.

HAVE WE AGUE AMONG US?—A tea spoonful

every three hours in the absence of the fever will cure you of Ague or Diarrhea. Physicians, Druggists, and all friends of the afflicted, will do well to recommend this Oil for PROLAPSUS UTERI, and good will be done—take the usual dose 2 or 3 times a day, and bathe the lower part of the back with it. Have you SCROFULA? The Petroleum will eradicate it, root and branch, at little cost or inconvenience. Get circulars of directions for adults and children, gratis of the agents. A trial is all we ask. Mind and get the right kind—it is of a beautiful reddish color and clear. Try it for Piles. For sale by HOLDEN KEMP & CO., C. F. Simms, Cary & Gordon, Beloit; G. W. CARWELL & BROTHER, have the

following disesases, as can be done by the use of PULVERMACHER'S Hydro-Electric Voltaic Chains Nervous Headache,

Spinal Disease, Deafness, Blindness, Neuralgia of the Face, ALL NERVOUS DISEASES

Are almost instantly removed by the simple application of the Electric Chains, which are constructed so as to be worn next to the skin, producing a constant current of uninterrupted Electro-Magnetism, which within the last few years has been discovered to possess STRANGE and WONDERFUL POWER, in the INSTANT RELIEF and PERMANENT CURE of nervous diseases. HISTORY.

Pulvermachers' Chain are presented to the public, as the most scientific and convenient mode of applying this powerful agent. They have been secured by patent in

Palace where they are on exhibition, seldom fail to obtain a chain before they leave the city.

Thanks be to the common sense of the people who are beginning to become disgusted with the practice of making a Drug Shop of their stomach—swallowing bot the after bottle of sickening, disgusting trash, having no more effect in even relieving, much less curing, the disease for which they are recommended, than a Poor Man's P'aster applied to the top of the head would have in curing an infant of worms.

All these great and remarkab'e discoveries, by which every ill "which flesh is heir to" is eradicated from the earth—strange as it may seem—are made by men who

earth-strange as it may seem-are made by men who are too ignorant to obtain a living by any other mode, are too ignorant to obtain a living by any other mode, and their knowledge of disease, its proper mode of cure, its cause, is just as extensive as an Arab's is of the mechanism of a steam engine. No intelligent person will deny the truth of this, and no Physician date risk his reputation as an honest man, and declare that nervous diseases are not more frequently increased in severity than relieved, by the old antiquated way of giving medicine into the stomach. If people will only become sensible and think for themselves, and believe that physicians practice upon their credulity more than they have any idea of, pay strict attention to temperance in all things, (which means very much.) make free use of pure cold water, internally and externally, with an occasional dash of soap, sleep in freely ventilated rooms, retire early and rise early, be happy and cheerful, employ their physicians to tell them "they require no physic;"—by so doing health and happire s will increase, bottled molasses and water be at a discount, and its famous discoverers be consigned to their legiti-

The Hydro-Electric chains are now for the first time offered to the people of Nashua, as being a better, quicker, and safer mode of curing all nervous diseases, than any other method or means hitherto discovered. They can be used by either a grown person or a child, are always ready for use, and with little care will last for years.

CAUTION.

Ladies who are enciente, are requested not to wear them, for by long use, miscarriage is apt to be pro-Price of Chains, \$3 to \$5, and can be sent by mail to any part of the country, together with a pamphlet of 36 pages, containing the modes of use, certificates of cure, &c.

### COMPANY IN THE WEST, TELE REALISM VOLUME ARE CELET

THIS Company continues to take risks upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain

er rates than most other responsible companies. All losses promptly paid at the office as soon as proof We believe it to be for the interest of the farmers to insure by themselves, their property being less imzardous than any other, consequently you will have no losses only your own of the same class, and all will be

on an equal footing. Experience has shown that two-thirds, if not threefourths of all the fires that occur are upon stores, taverns, mills, shops and such like property. In this company all such property is rejected positively, by let-Farmers, look to your own interest, and insure in a Farmers' Company.

MONDAY MORNING, SEPT. 11, 1854. ROOK COUNTY REPUBLICAN CON-VENTION.

The electors of Rock county who are determined to support no man for office who is not positively and fully committed to the support of the principles announced in the "Kepublican Platform" adopted at Madison on the 13th of July last, and whose personal character, political associations and private conduct, do not afford a guarantee that he is reliable, are invited to meet in their respective townships or wards at the place of helding the last township or ward election, on Tuesday the 10th day of October next, at 2 o'clock P. M. for the purpose of effecting a thorough organization of the Republican party in their towns or wards, and of appointing delegates to a county convention hereby called at the Court House in Janesville, on THURSDAY, the 12th day of October next, at 2 o'clock P. At the same time and place above designated in the respective towns and wards for meetings, to choose delegates to the county convention, the Republican electors of the wards of the city of Janesville, and of the towns in this county comprised in the 17th senaterial district, are requested to select an equal number of delegates to which they are entitled under the above appointment in the county convention, to represent them in a senatorial convention hereby called at the Court House in Janesville, on THURSDAY the 12th day of October next at 11 o'clock, A. M., to nominate a candidate for senator.

By order of the County Committee.

Congressional Convention -- Second District.

The electors of the second congressional district of Wisconsin, comprising the countries of Rock, Green, Dane, Iowa, Lafayette, Grant, Richland, Sauk, Adams, Portage, Marathon, Crawford, Bad Ax, La Crosse, Monroe, Polk, Pierce, Trempe alleau, Elk, Chippewa, Clark, Dunn, Buffelo, St. Croix, Douglass and La Pointe, who are opposed to the Nebraska iniquity, and in favor of the principles announced in the "Republican" platform, adopted at Madison July 18th, are invited to meet in their respective assembly districts and select two delegates from each to represent them in a congressional convention to be held at Mineral Point on Wednesday, the 18th of September, at 12 o'clock M., to nominate a candidate to be supported at the approaching election. By order of the state central committe, WM. A. WHITE, Chairman. Madison, August 14.

MINERAL POINT CONVENTION.-We have no other report of the proceedings of this convention than that brought by the delegates from this city. From them we leavn that Dr. Mitchell, who was presented and steadily voted for by this county, withdrew his name immediately upon the adoption of the resolutions, and that Mr. Eastman also withdrew his after trying the fate of another ballot, and finding himself losing ground. When a full report of the proceedings reach us, we shall give them, or such portions as will be necessary to understand them .-Meanwhile, the convention has our thanks for making the issue in this district a definite one, and boldly avowing the ground upon which it is to be contested.

A Manifesto Coming!-The Madison correspondent of the News gives us the following bit of political intelligence:

I am informed from an entirely reliable source that the governor and his special friends in the state administration, are preparing; and will soon publish a manifesto, taking ground against the national administration, the Nebraska bill, &c.: the move seems to me not to be well-timed or called for, and the effect in the approaching election can not be advantageous to the demoeratic party. It is calculated that four of the state officers, known as Mr. Barstow's particular friends, will sign it.

Mr. David Taylor, the independent, anti-Nebraska, anti-convention, democratic candidate for congress in this district, addressed a portion of our citizens at the court house, on Saturday evening last. His views on most of the questions of the day are at variance with those of the leaders of the party to which he has here-tofore belonged. Mr. Taylor understands the working of democratic conventions to perfecaion, and told some plain truths about them, as could easily be shown by recent demonstrations in this place. We think, however, he will find Taylor men less numerous than he anticipates

Between Sweden and Finland, about mid-way in the Gulf of Bothnia, lies a cluster of islands, some inhabited and some nel, numbering two or three hundred, called Aland Island. The or three numered, cance Ament Island. The main one bearing the same name, has some nine thousand inhabitants, and is 40 miles long by 30 broad. In 1789 these islands were made over to Russia by Sweden, and here being fine harbors where the navigation remains open late and the ice breaks up early, is the principal rendezvous of Russian fleets. On this largest is-land stands the fortress of Bomarsund. Of this fortress the London Times says:

"It has been constructed by the Russians within the last 20 years, and it is here the French army of the Baltic, supported by the marines of the British fleet, is now engaged in the first important operation of the war. fortress itself is said to be large enough to shalter an army of (0,000 men within the range of its guns, and we are assured that 10,000 laborers were employed in the construction of the works during that portion of the year when it is possible to build in so severe a climate.

The principal fortress consists of a double tier of semi-circular casemented batteries fronting the sea, mounting at least 80 heavy guns, but this fort does not appear to be armed on the side of the land. At a distance of about 1,000 yards from the principal fortress, and from the shore. are three mounds or hillocks, two of which are fortified as detached works, mounting about 20 guns each. That to the north, is called Fort Nottich and is 130 feet high; that to the south is called Tzee Fort. The central mound is used for a telegraph station."

THE CAPTURE OF BOMARSCHO BY THE ANGLO-FRENCH FORCES.—On Monday 7th August, Admiral Sir C. Napier hoisted his flag in H. M.'s steam frigate Bulldog Capt. Hall, and went up to Bomusund. On Tuesday Sth, the troops landed-all the boats of the division before Bomarsund were employed in this service. The operation commenced at daybreak, and was successfully conducted. No opposition was offered by the Russian troops, although the locality was ery favorable, as a position for riflemen. M. ship Amphion, Capt. Key, attacked and destroyed a small battery mounting six guns; the guns were destroyed by the fire of the frigate. and the Russians retreated to the principal fort. On the same day, the Bulldog, Capt. Hall, with the Admiral on board, and the Stromboll, tried the range of their guns on the round tower.-While thus employed the Bulldog got on shore; she was get off in about four hours, by the assistance of the Amphion and Vulture.

On Wednesday, the 9th ult., stores were land-In the evening a detachment of Russian soldiers was observed in Presto channel. Some boats endeavored to take them. The Russians made their escape, leaving five or six small beats in the hands of the English. . The Bulldog and the Gladiator, hearing the firing, ran down, but did not arrive in time to attack the Russians. In passing Bomarsund the steamers were fired at by the forts. The same day the English marines were landed.

Thursday, 10th .- Guns and heavy stores were landed. On this day her majesty's ship Penelops, Capt. Coffin, ran into a rock within range of the guns of Bomargund. Hecla, Gladiator and Pigmy went in to her assistance, opened fire on Bomarsund. Two Frenchmen were killed in boats alongside. The Penclope threw her guns overboard, and after two hours and a half got off, with considerable damage. The forts fired red hot shots. One of these passed

Monday morning.—Tzec fort surrendered to the French. The number of killed and wounded is estimated at about 30, but has not been ascertained. > THE ERIE AND KALAMAZOO BANK .- Having from time to time advised our readers, that the Erie and Kalamazoo railroad bank was as much entitled to confidence and credit, as any in the state, or elsewhere, and having defended its reputation from the assaults and slander of those who have, as we believe, assailed it for selfish and local consideration-we feel a pride which will be excused in reiterating our assurances as lished somewhere near the heart of the Missisto the ability and soundness of this institution, to all whom it may concern.

TREASURE DISCOVERED--The New York Times says that while some workmen in the employ of George Gibson, contractor, were removeng some earth at Harlem, N. Y., on land belonging formerly to Samuel Benson, deceased, they came to a box of Spanish dollars, which contained some 2,000 or 3,000, which were deposited there under the following circumstances: Samuel Benson, great grandfather to the late owner of the estate, unwilling to carry so much money with him to the mountains of Fishkill, whither he was gone during the days of the revolution, deposited the same for safe keeping, and planted over it a small fruit tree as a mark of the place of deposit, leaving his entire farm in charge of his slaves, his wife alone being acquainted with his secret. The tree soon dying was removed by a faithful old negro servant named Tom, and the ground worked as usual. peace was declared and Mr. Benson and family returned to his farm greatly to his chagrin he found the tree removed, and the burial place lost to his memory.

The workmen who found this deposit filled their pockets, left their employer, and since have not been heard of. They were two Dutchmen and three Irishmen. Contractor Gibson had left the spot a few minutes before the discovery.

A CURIOSITY --- A PRINTING ESTABLISHMENT Made by a Soldier.—The Minnesota Democrat has received a copy of the "Bomb Shell," a newspaper published at Fort Ripley. The Demo-crat gives the following account of the sheet:

To the eyes, it is an uncouth, ill-printed, muddy-looking sheet, and every letter in it is larger than those in a child's primer-but all these drawbacks are more than compensated for, by the knowledge that all the letters and furniture used in setting up the paper, were made by one of the soldiers in the fort, his principal tool to work with, being a small pocket knife. Those who know how necessary it is toaccurately square and level types, to make them serviceable at all, will readily agree with us that this is a wonderful exercise of skill, patience and ingenuity. Moreover, the press upon which the paper is printed, is from the same ingenious hands, and altogether, the "Bomb Shell" may well claim to be one, if not the first, in rank of the newspaper enterprises of the day.

AN IMPORTANT MOVEMENT. -- We have recently learned that the question of a meeting of western bankers for the purpose of considering those subjects in which they have a mutual interest, has been mooted for some time past, and that there is now every reason for supposing such a meeting will very shortly be held. We are glad to record the fact, because we are confident that it cannot result otherwise than in greatly promoting and forwarding the interests of the west, and in hastening forward the day when Wall street supremacy will yield the palm to that of another great finnneial centre, estabsippi valley. Under existing circumstances cur western banks may, with very few exceptions, be regarded as mere appendages to New York

#### Something New!!

MR. CHARLES AUSTIN, the cele-brated Reed maker has just completed his new Organ Reed, upon which he has labored for the last e years and expended more than six thousand dol-s. This reed is different from all others in its comlars. This reed is different from all others in its composition, being much larger and having more power. It is intended for Church and Parlor Organs as manufactured by Messrs. Austin & Co. These Organs have an upright (Organs) action and are of the shape of all Church Organs. The price will range from \$175 to \$300, depending upon the finish of the case. To churches in want of an instrument of that value we would say that they have more power than any common Organs.

KIER'S ROCK OIL, ROM a Well 400 feet deep, Near Pittsburgh

ROM a Well 400 feet deep, Near Pittsburgh, Pa., is offered to the public as a Natural Medicine of no common value. It is a different thing from the old Kentucky or American Oil, as this is used INTERNALLY as well as externally. As a local remedy in Paralysis, Piles, Rheumatism, Deafness. Loss of Sight, Burns, &c.—aiso, as a valuable Internal Remedy for Piles, Ague, Scrofula, Coughs, Diarrhea, Eryspiclas, old Sores, Eruptions of the Stin. Female Diseases, Worms, Badder and Kidneys, Bronchitis, Pains &c. &c., it invites the investigating Physician, as well as the suffering patient, to become acquainted with its merits.

Discovered in 1848, it has within 2 or 3 years, made multitudes of cures, and multitudes of friends—and as soon as tried the Sules not only increase but hold out. Testimony to its great merit is constantly accumulating in the hands of the proprietor by certificates, letters, and in other ways.

and in other ways.
IT DOCTORS THE WHOLE MAN-flesh and blood

and in other ways.

IT DOCTORS THE WHOLE MAN—flesh and blood—skin and bones—from head to fact—how it acts upon the system—upon diseases of different manifestations, we cannot fully tell. While it is both eathurlic and astringent, it is Alterative—and mind you, a REGULATOR. A lending principle in it is Nogthat. When you once have it in the family you will not be without it. Full as the world is of Patent Medicines—It is thought not best to suppress this, the work of NATURE—to make room for Humanimentions. Price 50 cents per botsle. It can be had of wholesalers at the large cities and towns in the West at Proprietor's prices.

HAVE WE AGUE AMONG US?—A tea spoonful every three hours in the absence of the fever will cure you of Ague or Diarrhoea. Z—Physicians, Druggists, and all feiends of the uffileted, will no well to recommend this Oil for PROLAFSUS UTERI, and good will be done—take the usual dose 2 or 3 times a day, and bathe the lewer part of the back with it. Have you SCROFULA? The Petroleum will eradicate it, root and branch, at little cost or inconvenience. Get circulars of directions for adults and children, graits of the agents. A tral is all we ask. Mind and get the right kind—it is of a beautiful readish color and clear. Try it for Piles.

### A GREAT MISTAKE

J. B. CROSBY & Co. MAVE just returned from New York and 41 Boston, and purchased so large a stock of Merchan-dise that they have not more to store them, and to remedy this, they have concluded to mark their goods down at

A TRIFLE ABOVE COST. which will crowd their store with customers and ensure large and heavy sales, thus making room for goods yet to arrive. Ladies and Gentlemen.

THIS IS NO HUMBII ! but a REALITY, and to be convenced of this fact per-sonally, look through their immensus stock, see the amount of goods they have in store, (and but a portion of their stock has yet arrived,) enquire the price, and you will acknowledge that we will sell you

GOOD GOODS, at nearly haif the Price, that other Merchants charge. We shall not mention a tow testing articles and their prices, and sell the balance of stock at higher rates, as other Merchants do, but shall mark our whole stock at a small regular profit, and adhere strictly to the

ONE PRICE SYSTEM. Our stock consists of STAPLE AND FANCY DRY GOODS, GROCERIES, CROCKERY, BOOTS AND SHOES, HATS, CAPS, CARPETS, OIL CLOTHS, RE (DY-MA)E CLOTHING, &c. &c., to which we invite especial attention; as to quality and price, as we are determinen that

Every Sale shall give Full and Perfect Satisfaction.

Auction or shop were goods which are not cheap a any price we do not deal in; but buy only the besigned of goods, and of the latest styles. We are the only House in Janesville that do a strictly cash business, and buying of importers and wholly for each, we

CAN AND WILL SELL CHEAPER AND BETTER GOODS. than those who buy small stocks on time, and sell them the same way.

To Country Merchants, We would say, that we will sell yourgoods at New York and Bost a prices, adding freight. You will find us at the old stand of J. B. CROSBY. two doors above the Post Office. J. B. CROSEY & CO. Jenesville, May 30, 1854.

ALL NERVOUS DISEASES Anni NEW COUS DISEASES

Are almost instantly removed by the simple application of the Electric Chains, which are constructed so as to be worn next to the skin, producing a constant current of uninterrupted Electro-Magnettem, which within the last few years has been discovered to possess STRANGE and WONDERPUL POWER, in the INSTANT RELIER and PERMANENT CURE of nervous diseases.

HISTORY.

Pulvermachers' Chain are presented to the public, as the most scientific and convenient mode of applying this powerful agent. They have been secured by patent in France, (where they were invented) England, Germann, Austria, Belgium, and one year since introduced into the United States, and also secured by patent. They were undirectory. They have the State of New York

Austria, Belgium, and one year since introduced into the United States, and also secured by patent. They are used in every Hospital in the State of New York, and highly recommended by profesors Valentine Mott. Van Buren. Post. Carnochan, of that city, who daily make use of them in their practice.

THE IVORLD IS CHALLENGED to produce so many well authenticated certificates of cure, not only from intelligent patients, but from scientific Physicians. The sale now in New York is perfectly ASTONISHING, and thousands who visit the Crystal Patace where they are on exhibition, seldom fail to obtain a chain before they leave the city.

Thanks be to the common sense of the people who are beginning to become disgusted with the practice of

thin a chain before they leave the city.

Thanks be to the common sense of the people who are beginning to become disgusted with the practice of making a Drug Shop of their stomach—swallowing bot lie after bottle of sickening, disgusting trash, having no more effect in even relieving, much less curing, he disease for which they are recommended, than a Poor Man's Plaster applied to the top of the head would have in curing an infant of worms.

All these great and remarkable discoveries, by which every ill "which flesh is heir to" is eradicated from the earth—strange as it may seem—are made by men who are too fanorant to obtain a living by any other mode, and their knowledge of disease, its proper mode of cure, its cause, is just as extensive as an Arab's is of the mechanism of a steam engine. No intelligent person will deny the truth of this, and no Physician date risk his reputation as an honest man, and declare that normal diseases are not more frequently increased in severity than relieved, by the old antiquated way of giving medicine into the stomach. If people will only become sensible and think for themselves, and believe that physicians practice upon their credulity more than they have any klee of, pay strict attention to temperance in all things, (which means very much,) make free use of pune cold water, internally and early, be happy and cheerful, employ their physicians to tell them "they require no physic:"—byso doing health and happiness will increase, hottled molasses and water be at a discount, and its famous discoverers be consigned to their legitimate stations.

mate stations.

The Hydro-Electric chains are now for the first time offered to the people of Nashua, as being a better, quicker, and safer mode of curing all nervous diseases, than any other method or means hitherto discovered. They can be used by either a grown person or a child, are always ready for use, and with little care will last for years.

CAUTION. Ladies who are enciente, are requested not to wear hem, for by long use, miscarriage is apt to be pro-

### \$15,000 Worth of BOOTS AND SHOES

NEW GOODS:

Wisconsin Boot & Shoe Store. AM now receiving one of the largest and finest stocks of Boots and Shoes that I have ever before brought to Janesville, and what is finer than all the rest, I can sel them at lower prices than I have ever sold before, notwithstanding the great advance in the Eastern Market. My assortment of

Ladies Fine Shoes,

in particular, I have no hesitation in saying named be equaled in the State, both for style and durability, heing all made to order, and in such a manner that I can warrant every article I sell, with the understanding at all times, that if they do not come up to the warrant, they shall be mended free of charge. GENTLEMEN'S WEAR. GENTLEMEN'S WEAR.

In this line I know beyond a doubt that I can show you a finer assortment and at better prices by twenty-five per cent, than can be found at any of the side shops or Dry Goods stores about town. I want it distinctly understood that I make the BOOT AND SHOE TRADE my WHOLE STUDY, and that I Rwy More, Sell More and know more about the trade, than the whole pile of petty dealers put together. And I know also that I can make it an object for Every Farmer in Fock townsy, as well as every one that trades in Janesville to buy their Boots and Shoes of me for the more I sell the smaller profits I can sell at.

Mannfacturing. I want to say a few words to you in regard to my Manufacturing Department, to wit. That I am now engaged more extensively in the manufacturing business, and probably an selling more custom work than all the sheps about town put together, simply for these reasons—that I use better Stock, being entirely of Eastern tunnage, which every one knows is worth twenty-five per cent more than the common western tanned leathers and what is a better resear and of greater inner.

er; and what is a better reason and of greater importance, I can Sell my C stom Work at Much Lower Prices, and at the same time sell you a better article than you can get at the shops, for this reason, which you must all see is a very paipable one, that in buying my stock cust and in such large quantities, I of course save a very large per cent, and thereby can sell at lower prices and at the same time make my profits.

I want to state further that I have secured the services of Mr. Buckingham, who has formerly been entaged.

cs of Mr. Buckinguam, who has formerly been engaged in the manufacturing business on the west side of the River, and who is known by every one to be the best manufacturer in the city; and if we don't get you up a better article, both in regard to style and durability, we will forreit our money and our reputation, and I pledge you my word that this is no small forfeit.

Leather and Findings. I have just received over \$3,000 worth of the very best brands of Eastern Sole & Upper Leathers; also, a very large assortment of FRENCH and PHILADELPHIA KIP and FRENCH CALF SKINS, together with a full assortment of MOROCCOS of every kind, which I will sell at

Precisely Milwaukee and Thicago Prices. I have constantly on hand, also, a large assortment of all kings of FINDINGS, LASTS, BOOT TREES, CRIMPS, etc., etc., all of which will be sold at the same rates.

I request the attention of manufacturers in town as well as in the country to my stock, 34 I think I can make it an object for you to buy of me. At least, I can sell you a much superior article to that which you get of the wedlers.

of the pedlers. TO THE LADIES.

I would say that I am under very great obligation for the partiality you have shown me, in always procuring your understandings from me, and I now publicly promise and swear that I will make every one of you who may be entitled to the same a present of a handsome pair of CACKS, when I shall have closed up my shoeselling causer. I would sayfurther, that I am prepared to get up to order any style of work you wish, at low rates.

THE ERIE AND KALAMAZOO BANK .- Having from time to time advised our readers, that the Erie and Kalamazoo railroad bank was as much entitled to confidence and credit, as any in the state, or elsewhere, and having defended its reputation from the assaults and slander of those who have, as we believe, assailed it for selfish and local consideration—we feel a pride which will be excused in reiterating our assurances as to the ability and soundness of this institution, to all whom it may concern.

The bank has since the commencement of the "run" upon it, redeemed about one-half of its entire circulation, and has not ceased a single hour during the whole period, to pay coin for its notes at its counter; and had the panic continued, they were prepared and determined at any cost and at any sacrifice to take in every dollar of their liabilities.

We confess to some astonishment, with all our faith in its ability, that the bank has been able ender these circumstances, to withstand so triumphantly, such enormous drafts upon its vaults without notice, or time to prepare for the storm which has passed over them. It vindicates both its soundness and the integrity of its managers. It has been tried by fire and comes out pure gold.

The officers, in this trial, have proved themselves equal to their duties and their task .-They have proved that the confidence placed in them by the public has been merited—any risk of their honor and their private fortunes—that they have high regard for their reputation as men, as well as for their moral obligations to the community. They have established the fact that their career will be honorable, however dark the night, by making sacrifices of money, toil and personal comfort, that no dishonor might attach to their institution, and that the Watchtower, 4th.

### Something New!!

MR. CHARLES AUSTIN, the cele-brated Reed maker has just completed his new Organ Reed, upon which he has inbored for the last five years and expended more than six thousand dellars. This reed is different from all others in its camposition, being much larger and having more power. It is intended for Church and Parlor Organs as manufactured by Messes. Austin & Co. These Organs have an upright (Organ) action and are of the shape of all Church Organs. The price will range from \$175 to \$300, depending upon the finish of the case. To churches in want of an instrument of that value we would say that they have more power than any common Organ

KIER'S ROCK OIL, ROM a Well 400 feet deep. Near Pittsburgh, Pa., is offered to the public as a Natural Medicine of no common value. It is a different thing from the old Kentucky or American Off, as this is used INTERNALLY as well as externally. As a local remody in Paralysis, Piles, Rhommatism, Deafness, Loss of Sight, Burns, &c.—also, as a valuable Internal Keinedy for Piles, Ague, -ass, as a valuable Internal Interceptor Ples, agus, Sero Inla, Coughs, Dinrition, Erysipelas, old Sores, Bruptions of the Skin, Fomale Diseases, Worms, Bladder and Kidners. Bronchitis, Pains &c. &c., it invites the investigating Physician, as well as the suffering patient, to become acquainted with its merits.

Discovered in 1849, it has within 2 or 2 years, made with the suffering patient, and a sufficient of the suffering and a sufficient of the sufficien

multivides of curses, and multivides of friends—and as soon as tried the Fales not only increase but hold out. Testimony to its great merk is constantly accumulating in the hands of the proprietor by certificates, letters, and in the hands of the proprietor by certificates.

Testimenty to its great morif is constantly accumulating in the hands of the proprietor by certificates, letters, and in other ways.

IT DOCTORS THE WHOLE MAN—desh and blood—skin and bones—from head to faot—how it acts upon the system—upon diseases of different manifestations, we cannot fully tell. While it is Loth cathartic and astringent, it is Alterative—and mind, you, a REGULATOR. A leading principle in it is Nappha. When you once have it in the family you will not be without it.

Full as the world is of Patent Medicines—it is thought not best to suppress this, the work of NATURE—to make room for Human inventions. Price 50 cents per bottle. It can be had of wholesalers at the large cities and towns in the West at Proprietor's prices.

HAVE WE AGUE AMONG US!—A tea spoonful every three hours is the absence of the fever will cure you of Ague or Diarrhora. Medicines, Druggists, and all friends of the afflered, will do well to recommend this Oil for PROLAPSUS UTERI, and good will be done—take the usual dose 2 or 2 timess a day, and bothe the lower part of the back with it. Have you SCROFULA? The Parroleum will eradicate it, root and bronch, at little cost or inconvenience. Get circulars of directions for adults and children, grants of the agents. A trial is all we ask. Mind and get the right kind—it is of a beautiful readish color and clear. Try it for Plies.

ALL NERVOUS DISEASES

ALLI NEWYOUS DISEASES

Are almost instantly removed by the simple application of the Electric Chains, which are constructed so as to be worn next to the skin, producing a constant current of uninterrupted Electro-Magnetism, which within the last few years has been discovered to possess STRANGE and WONDERFUL POWER, in the INSTANT RELIEF and PERMANENT CURE of nervous diseases.

HISTORY. Pulvermachers! Chain are presented to the public, as Pulvermachers! Chain are presented to the public, as the most scientific and convenient mode of applying this powerful agent. They have been secured by putent in France, (where they were invented) England. Germany, Austria, Belgium, and one year since introduced into the United States, and also secured by patent. They are used in every Hospital in the State of New York, and highly recommended by professors Valentine Mott, Van Buren, Post, Carnochan, of that city, who daily make use of them in their practice.

THE WORLD IS CHALLENGED

to produce so many well authenticated certificates of cure, not only from intelligent patients, but from scientific Physicians. The sale now in New York is perfectly ASTONISHING, and thousands who visit the Crystal Italicae where they are on exhibition, seldom fail to obtain a chain before they leave the city.

Thanks be to the common sense of the people who are beginning to become disgusted with the practice of making a Drug Shop of their stomach—swallowing bot the after bottle of sickening, disgusting trash, having no more effect in even relieving, much less curing, the disease for which they are recommended, than a Poor Man's Plaster applied to the top of the head would have in curing an infant of worms.

All these great and remarkable discoveries, by which every ill which field is a from the earth—strange us it may seem—are made by men who

All these great and remarkance discoveries, by when every ill "which fissh is heir to" is evadiented from the enril—strange as it may seem—are made by men who are too igno ant to obtain a living by any other mode, and their knowledge of disease, its proper mode of cure, its cause, is just as extensive as an Arab's is of the mechanism of a steath engine. No intelligent person will deny the truth of this, and no Physician date risk his reputation as an honest man, and declare that narrous diseases are not more frequently increased in severily than relieved, by the old antiquated way of giving medicine into the storage. If people will only become sensible and think for themselves, and believe that physicians practice upon their credulty more than they have any idea of, pay strict attention to temperance in all things, (which means very much.) make free use of pure cold neater, internally and externally, with an occasional dash of soap, sleep in freely ventilated rooms, retire early and rise early, be happy and cheerful, employ their physicians to tell them "they require no physic;"—by so doing health and happiness will increase, bottled molasses and water be at a discount, and its famous discoverers be consigned to their legitimate stations.

The Hydro-Electric chains are now for the first time

nate stations.

The Hydro-Electric chains are now for the first time offered to the people of Nashua, as being a better, quicker, and safer mode of curing all nervous diseases, than any other method or means hitherto discovered. They can be used by either a grown person or a child, are always ready for use, and with little care will last for years.

CAUTION. Ladies who are enciente, are requested not to wear hem, for by long use, miscarriage is upt to be pro-

duced.

Price of Chains, \$8 to \$5, and can be sent by mail to any part of the country, together with a pamphlet of 36 pages, containing the modes of use, certificates of cure, &c.

#### 17th SENATORIAL DISTRICT CON-VENTION.

At the same time and place above designated in the respective towns and wards for meetings, to choose delegates to the county convention, the Republican electors of the wards of the city of Janesville, and of the towns in this county comprised in the 17th senatorial district, are requested to select an equal number of delegates to which they are entitled under the above appointment in the county convention, to represent them in a senatorial convention hereby called at the Court House in Janesville, on THURSDAY the 12th day of October next at 11 o'clock, A. M., to nominate a candidate for senator.

By order of the County Committee.

### Congressional Convention---Second District.

The electors of the second congressional district of Wisconsin, comprising the countles of Rock, Green, Dane, Iowa, Lafayette, Grant, Richland, Sauk, Adams, Portage, Marathon, Crawford, Bad Ax, La Crosse, Monroe, Polk, Plerce, Trempe a'leau, Lik, Chippewa, Clark, Dunn, Buffalo, St. Croix, Douglass and La Pointe, who are opposed to the Nebraska infquity, and in favor of the principles announced in the "Republican" platform, adopted at Madison July 18th, are invited to meet in their respective assembly districts and select two delegates from each to represent them in a congressional convention to be held at Mineral Point on Wednesday, the 18th of September, at 12 o'clock M., to nominate a candidate to be supported at the approaching election. By order of the state central committe, WM. A. WHITE, Chairman.

MINERAL POINT CONVENTION.—We have no other report of the proceedings of this convention than that brought by the delegates from this city. From them we learn that Dr. Mitchell, who was presented and steadily voted for by this county, withdrow his name immediately upon the adoption of the resolutions, and that Mr. Eastman also withdrew his after trying the fate of another ballot, and finding himself losing ground. A MANIFESTO COMING!-The Madison correspondent of the News gives us the following bit of political intelligence:

I am informed from an entirely reliable source that the governor and his special friends in the state administration, are preparing, and will soon publish a manifesto, taking ground against the national administration, the Nebraska bill, &c.; the move seems to me not to be well-timed or called for, and the effect in the approaching election can not be advantageous to the demoeratic party. It is calculated that four of the state officers, known as Mr. Barstow's particular filends, will sign it.

... Between Sweden and Finland, about mid-way in the Gulf of Bothnia, lies a cluster of islands, some inhabited and some not, numbering two or three hundred, called Aland Island. The main one bearing the same name, has some nine thousand inhabitants, and is 40 miles long by 30 broad. In 1789 these islands were made over to Russia by Sweden, and here being fine harbors where the navigation remains open late and the ice breaks up early, is the principal rendezvous of Russian flects. On this largest island stands the fortress of Bonnesund. Of this fortress the London Times says; , , ,

"It has been constructed by the Russians within the last 20 years, and it is here the French army of the Baltic, supported by the marines of the British fleet, is now engaged in fortress itself is said to be large enough to shelter an army of +0,000 men within the range of its guns, and we ere assured that 10,000 laborers were employed in the construction of the works during that portion of the year when it is

possible to build in so severe a climate. The principal fortress consists of a double tier of semi-circular casemented batteries fronting the sea, mounting at least 80 heavy guns, but this fort does not appear to be armed on the side of the land. At a distance of about 1,000 yards from the principal fortress, and from the shore, are three mounds or hillocks, two of which are fortified as detached works, mounting about 20 guns each. That to the north, is called Fort Nottich and is 130 feet high; that to the south is called Tzee Fort. The central mound is used for a telegraph station."

THE CAPTURE OF BOMARSUND BY THE ANGLO-

On Tuesday Sth, the troops landed-all the boats of the division before Homarsund were employed in this service. The operation commenced at daybreak, and was successfully conducted. No opposition was offered by the Russian troops, although the locality was very favorable, as a position for riflemen. II. M. ship Amphion, Capt. Key, attacked and destroyed a small battery mounting six guns; the guns were destroyed by the fire of the frigate, and the Russians retreated to the principal fort. On the same day, the Bulldog, Capt. Hall, with the Admiral on board, and the Stromboli, tried the range of their guns on the round tower .--While thus employed the Bulldog got on shore; she was got off in about four hours, by the as-

sistance of the Amphion and Vulture. On Wednesday, the 9th ult., stores were landed. In the evening a detachment of Russian soldiers was observed in Presto channel. Some hoats endeavored to take them. The Russians made their escape, leaving five or six small boats in the hands of the English. The Bulldog and the Gladiator, hearing the firing, ran down, but did not arrive in time to attack the Russians. In passing Bomarsund the steamers were fired at by the forts. The same day the English marines were landed.

Thursday, 10th.—Guns and heavy stores were landed. On this day her majesty's ship Penelope, Capt, Collin, ran Into a rock within range of the guns of Bomarsund. THE ERIE AND KALAMAZOO BANK .- Having from time to time advised our readers, that the Erie and Kalamazoo railroad bank was as much entitled to confidence and credit, as any in the state, or elsewhere, and having defended its reputation from the assaults and slander of those who have, as we believe, assailed it for selfish and local consideration—we feel a pride which will be excused in reiterating our assurances as

to the ability and soundness of this institution, to all whom it may concern. The bank has since the commencement of the "run" upon it, redeemed about one-half of its entire circulation, and has not ceased a single hour during the whole period, to pay coin for its notes at its counter; and had the panic continued, they were prepared and determined at any cost and at any sacrifice to take in every

dollar of their liabilities. We confess to some astonishment, with all our faith in its ability, that the bank has been able ender these circumstances, to withstand so triumphantly, such enormous drafts upon its vaults without notice, or time to prepare for the storm which has passed over them. It vindicates both its soundness and the integrity of its managers. It has been tried by fire and comes out pure gold.

The officers, in this trial, have proved themselves equal to their duties and their task .-They have proved that the confidence placed in them by the public has been merited—any risk of their honor and their private fortunes-that they have high regard for their reputation as men, as well as for their moral obligations to the community. They have established the fact that their career will be honorable, however dark the night, by making sacrifices of money, toil and personal comfort, that no dishonor might attach to their institution, and that the Watchtower, 4th.

### Something New!!

MR. CHARLES AUSTIN, the cele-brated Reed maker has just completed his new Organ Reed, upon which he has inbored for the last five years and expended more than six thousand dellars. This reed is different from all others in its camposition, being much larger and having more power. It is intended for Church and Parlor Organs as manufactured by Messes. Austin & Co. These Organs have an upright (Organ) action and are of the shape of all Church Organs. The price will range from \$175 to \$300, depending upon the finish of the case. To churches in want of an instrument of that value we would say that they have more power than any common Organ

J. P. Pease & Co., Janesville Wis., are interested in the manufacture and sale of these instruments, and are the only persons through whom they can be had-They will have one or more for exhibition as early as ept. 10, and after that a good assortment as soon asthey can be manufactured. A PERIODICAL IN JANESVILLE!

"The Wisconsin Home," Miscellaneous and Reformatory Jour-A nal, will be printed on the first and fifteenth of each month from and after the FIFTEENTH OF SEPTEMBER, 1854.

by Messrs. Baken & Dorv, publishers and proprietors of the Janesville Free Press; and edited by W.M. M. Dorr, of the above named firm. Each No. of "THE WISCONSIN HOME" will consist of EIGHT PAGES; making a sheet, in point of size, nearly the same as the "Scientific American." We shall reserve ONLY ONE COLUMN OF ADVERTISING for the purpose of publishing an occasional prospectus in addition to our own; leaving THIRTY-ONE COLUMNS OF READING MATTER.

One or two good stories will appear in each No. but none except those having a directly moral and benefi-cial tendency will be admitted into its columns. A short summary of passing events will be given; but no political grounds will be taken. As a better idea may be formed by seeing the article fiself, the first No. will be furnished to all who may wish to examine it, FREE OF CHARGE.

The Terms of "The Wisconsin Home" will be ONE DOLLAR PER YEAR, payable half yearly in advance. Subscription books now open. Orders solicited early, especially for sample

numbers, in order that we may know how large an edition will supply the demand. Address post-paid. WM. M. DOTY, Janesville, Wis. \*\* Papers giving the above one insertion and calling attention thereto editorially, will not only be enti-tied to an exchange, but to the thanks of the proprietor. au12 W. M. ### At the same time and place above designated in the

respective towns and wards for meetings, to choose delegates to the county convention, the Republican electors of the wards of the city of Janesville, and of the towns in this county comprised in the 17th senato rial district, are requested to select an equal number of delegates to which they are cutified under the above appointment in the county convention, to represent them in a senatorial convention hereby called at the Court House in Janesville, on THURSDAY the 12th day of October next at 11 o'clock, A. M., to nominate By order of the County Committee.

Congressional Convention --- Second District.

The electors of the second congressional district of Wisconsin, comprising the countles of Rock, Green, Dane, Iowa, Lafayette, Grant, Richland, Sauk, Adams, Portage, Marathon, Crawford, Bad Ax. La Crosse, Monroe, Polk, Pierce, Trempe aleau, Elk, Chippewa, Clark, Dunn, Buffalo, St. Croix, Douglass and La Pointe, who are opposed to the Nebraska iniquity, and in favor of the principles announced in the "Republican" platform, adopted at Madison July 18th, are invited to meet in their respective assembly districts and select two delegates from each to represent them in a congressional convention to be held at Mineral Point on Wednesday, the 10th of September, at 12 o'clock M., to nominate a candidate to be supported at the approaching election. By order of the state central committe, WM. A. WHITE, Chairman, Madison, August 14.

MINERAL POINT CONVENTION .- We have no other report of the proceedings of this convention than that brought by the delegates from this city. From them we learn that Dr. Mitchell, who was presented and steadily voted for by this county, withdrew his name immediately upon the adoption of the resolutions, and that Mr. Eastman also withdrew his after trying the fate of another ballot, and finding himself losing ground. When a full report of the proceedings reach us, we shall give them, or such portions as will be necessary to understand them .-Meanwhile, the convention has our thanks for making the issue in this district a definite one,

This was decidedly the best lot in market—average weight, 800 lbs. The lot were sold for about \$10 per hundred.

A MANIFESTO COMING!-The Madison correspondent of the News gives us the following bit of political intelligence:

I am informed from an entirely reliable source that the governor and his special friends in the state administration, are preparing, and will soon publish a manifesto, taking ground against the national administration, the Nebraska bill, &c.; the move seems to me not to be well-timed or called for, and the effect in the approaching election can not be advantageous to the democratic party. It is calculated that four of the state officers, known as Mr. Barstow's particular friends, will sign it.

Mr. David Taylor, the independent, anti-Nebraska, anti-convention, democratic candidate for congress in this district, addressed a portion of our citizens at the court house, on Saturday evening last. His views on most of the questions of the day are at variance with those of the leaders of the party to which he has heretofore belonged. Mr. Taylor understands the working of democratic conventions to perfecaion, and told some plain truths about them, as could easily be shown by recent demonstrations in this place. We think, however, he will find Taylor men less numerous than he anticipates on the day of election .- Mineral Point Trin-

WHERE IS BOMARSUND ?-Our readers will inquire, after reading the war-like operations in the Baltic, and the capture of the fortress of

Between Sweden and Finland, about mid-way in the Gulf of Bothnia, lies a cluster of islands, some inhabited and some not, numbering two or three hundred, called Aland Island. The main one bearing the same name, has some nine thousand inhabitants, and is 40 miles long by 30 broad. In 1789 these islands were made over to Russia by Sweden, and here being fine harbors where the navigation remains open late and the ice breaks up early, is the principal rendezvous of Russian fleets. On this largest is-land stands the fortress of Bonnesund. Of this fortress the London Times says:

"It has been constructed by the Russians within the last 20 years, and it is here the French army of the Baltic, supported by the marines of the British fleet, is now engaged in the first important operation of the war. fortress itself is said to be large enough to shelter an army of . 0,000 men within the range of its guns, and we ere assured that 10,000 laborworks during that portion of the year when it is possible to build in so severe a climate.

The principal fortress consists of a double tier of semi-circular casemented batteries fronting the sea, mounting at least 80 heavy guns, but this fort does not appear to be armed on the side of the land. At a distance of about 1,000 yards from the principal fortress, and from the shore, are three mounds or hillocks, two of which are fortified as detached works, mounting about 20 guns each. That to the north, is called Fort Nottich and is 130 feet high; that to the south is called Tzee Fort. The central mound is used for a telegraph station."

THE CAPTURE OF BOMARSEND BY THE ANGLO-

FRENCH Forces.-On Monday 7th August, Admiral Sir C. Napier hoisted his flag in H. M.'s steam frigate Bulldog, Capt. Hall, and went up to Bomarsund. On Tuesday 8th, the troops landed—all the boats of the division before Bomarsund were employed in this service. The operation commenced at daybreak, and was sucessfully conducted. No opposition was offered by the Russian troops, although the locality was very favorable, as a position for riflemen. II. M. ship Amphion, Capt. Key, attacked and destroyed a small battery mounting six guns; the guns were destroyed by the fire of the frigate, and the Russians retreated to the principal fort. On the same day, the Bulldog, Capt. Hall, with the Admiral on board, and the Stromboli, tried the range of their guns on the round tower.-While thus employed the Bulldog got on shore; she was got off in about four hours, by the assistance of the Amphion and Vulture, On Wednesday, the 9th ult., stores were land-

ed. In the evening a detachment of Russian soldiers was observed in Presto channel. Some boats endeavored to take them. The Russians made their escape, leaving five or six small bonts in the hands of the English. The Bulldog and the Gladiator, bearing the firing, ran down, but did not arrive in time to attack the Russians. In passing Bomarsund the steamers were fired at by the forts. The same day the English marines were landed. Thursday, 10th .- Guns and heavy stores were

landed. On this day her majesty's ship Penelope, Capt. Collin, ran into a rock within range of the guns of Bomarsund. Heela, Gladiator and Pigmy went in to her assistance, opened fire on Bomarsund. Two Frenchmen were killed in boats alongside. The Penslope threw her guns overboard, and after two hours and a half got off, with considerable damage. The forts fired red hot shots. One of these passed through the midshipmen's berth.

Friday, 11th, and Saturday, 12th.—Setting guns into position and erecting batteries on Saturday 12th .- The French guns commenced

firing at Tzec fort at 4 A. M. and at 4 30 P. M. the fort showed a flag of truce. Firing ceased. Monday morning.—Tree fort surrendered to the French. The number of killed and wonnded is estimated at about 30, but has not been ascertained. In the English camp a marine, ying down in a tent, was struck by a cannon ball, which fell upon his chest, crusted and and boldly avowing the ground upon which it is killed him. One marine severely wounded .-There were many very narrow escapes. The ground was ploughed up in all directions by shot and shells, and it appears almost miraculous E. B. > escape a wound. Tuesday.-The English field and breaching batteries opened fire on Nottich fort, which was breached by 3 o'clock P. M., and it surrendered in the evening. During the attack, lieutenant Wrottesley, R. E., was killed. He was stooping down in obedience to signal, when a shot after striking the trunion of one of the guns, bounded against him, inflicting a dreadful wound. His side was crushed, and his hands, which were folded together at the time, were torn to pieces-he died very soon afterward. In this fort there were five killed and six or seven wounded, and 125 prisoners. Capt. Ramsay slightly wounded.

The English ships Edinburgh, Ajax, Amphion, Bull-Dog, Valorous, Heela and Driver, and the French ships Duperre, Trident, Darien, Asmodee and Phlegeton, continued firing at at the sea face of the principal fort of Bomarsund, while at the same time the French field and mortar batteries poured an incessant fire on the rear, and an English 8 inch gun on the captured six gun battery maintained an excellent flanking fire.

The captured fort of Tzee blew up about 1 P. M. Some doubt appears to exist whether the explosion was caused by the French or the Russians.

On Wednesday, 16th, the French batteries ndvanced considerably nearer to the land face of the fort, and kept up incessant fire; the heavy guns in the six-gun battery served by the English under Captain Pelham did great execution; the large blocks of granite that formed the face of the fort, and which in appearance formed an immense resistance, fell out in masses, and rub-ble with which the wall filled in tumbled out in heaps. The Edinburgh, the Ajax and the steamers fired at long range on the Bomarsund fortress, while at the same time the Leopard attacked the fort of Presto, on the other side of

the narrow channel, At 12 30 a flag of truce was held out at an embrasure of Bomarsund, toward the fleet; a boat with an officer was sent on shore, and at about half past twelve the governor surrendered. General Bodisco is an old man, apparently 80 years of age. He was very anxious that the French general-in-chief should certify that he had done his duty. General Baraguay d' Hilliers returned the Russian general's sword, and at the same time extelled the valor with which he had defended his trust, and the prudence be almost tempted, instead of a well stocked ance could have done more than cause a useless plantation in Alabama, to wish for a well peo-

It vindicates both its soundness and the integrity of its managers. It has been tried by fire and comes out

THEASURE DISCOVERED --- The New York limes says that while some workmen in the employ of George Gibson, contractor, were removeing some earth at Harlem, N. Y., on land belong ing formerly to Samuel Benson, deceased, they came to a box of Spanish dollars, which contained some 2,000 or 3,000, which were deposited there under the following circumstances: Samnel Benson, great grandfather to the late owner of the estate, unwilling to carry so much money with him to the mountains of Fishkill, whither he was gone during the days of the revolution, deposited the same for safe keeping, and planted over it a small fruit tree as a mark of the place of deposit, leaving his entire farm in charge of his slaves, his wife alone being acquainted with his secret. The tree soon dving was removed by a faithful old negro servant named Tom, and the ground worked as usual. When peace was declared and Mr. Benson and family returned to his farm greatly to his chagrin he found the tree removed, and the burial place lost to his memory.

The workmen who found this deposit filled their pockets, left their employer, and since have not been heard of. They were two Dutchmen and three Irishmen. Contractor Gibson had left the spot a few minutes before the dis-

A CURIOSITY-A PRINTING ESTABLISHMENT Made by a Soldier.—The Minnesota Democrat has received a copy of the "Bomb Shell," a newspaper published at Fort Ripley. The Democrat gives the following account of the sheet:

To the eyes, it is an uncouth, ill-printed muddy-looking sheet, and every letter in it is larger than those in a child's primer—but all these drawbacks are more than compensated for, by the knowledge that all the letters and furniture used in setting up the paper, were made by one of the soldiers in the fort, his principal tool to work with, being a small pocket knife. These who know how necessary it is to accurately square and level types, to make them serviceable at all, will readily agree with us that this is a wonderful exercise of skill, patience, and ingenuity. Moreover, the press upon which the paper is printed, is from the same ingenious hands, and altogether, the "Bomb Shell" may well claim to be one, if not the first, in rank of the newspaper enterprises of the day.

A BOVING DEMONSTRATION .- The announce ment of Douglas' second meeting drew together quite a large assemblage in the park yesterday afternoon. They were, of course, much disap-Tree fort had surrendered it was the object of pointed at finding that Douglas did not make his appearance, but fortunately Providence or luck provided a substitute. A stray calf happened to stray into the enclosure, and shortly after made his appearance upon the platform. He was immediately recognized by the crowd as an authentic and accredited representative of the missing senator, and was received by them in a manner befitting the man whom he represented. His calf-ship was at first rather embarrassed for words, but upon his tail being sharply pulled, soon gave vent to his feelings in a natural and expressive manner. The incident afforded much mirth to the crowd who witnessed it .- Chicago Tribune, . th.

> Somnambu-Somnambu-An instance of somnambulism occurred in this village, a short time since, worth reporting. It appears that a certain Mrs , had for some time been troubled with her favorite cat, which was in the habit of erawling into the window after the family had retired to rest, and taking lodgings with the balance of them. One night the good lady, in a fit of somnambulism, fancied that she felt the eat in bed. She carefully secured it around the waist, and went to the window and threw it Soon after she was awakened by the cries out. of her infant, about three months old, which the had thrown out into the garden instead of the cat .- Wan. Plaindealer,

The Boston Post is in perfect eestacy at the way the democracy "are putting it" to their opponents in Yates' and Richardson's districts in his state.

This reminds us of a story of a man and his little son who came across a woodchuck borough, nto which their little dog forthwith ran. The 'animile" being somewhat stirred up, forthwith seized the dog by the nose, who made a prodi-

gious outery.
"There," says the boy in perfect eestacy,
"Charm has got him!"

"Ah, no, my son," replied the father. ms got Charm!"-Chicago Journal.

A HARD HIT.-About the hardest hit we have seen is the following, which is contained in John Mitchel's recent letter to arch-bishop Hughes: "Now does your grace see anything so horrible in a plantation of negroes? Are you not aware that priests, bishops, monasteries, yea, popes, have held slaves? Yet it is not wonderful that you should not covet a plantation in the south so long as you possess that enviable piece of property, the Calvary cemetry, where, I see by the newspapers, 448 of your flock were buried last week at a fee of kive bollans per corpse to you. I wish your grace joy. I shall

AN IMPORTANT MOVEMENT,-We have recently learned that the question of a meeting of western bankers for the purpose of considering those subjects in which they have a mutual interest, has been mooted for some time past, and that there is now every reason for supnosing such a meeting will very shortly be held. We are glad to record the fact, because we are confident that it cannot result otherwise than in greatly promoting and forwarding the interests of the west, and in hastening forward the dny when Wall street supremacy will yield the palm to that of another great financial centre, established somewhere near the heart of the Mississippi valley. Under existing circumstances our western banks may, with very few exceptions, be regarded as mere appendages to New York and New England. A connected chain of cause and effect, which can easily be traced up from its beginning, has very naturally led to this result.—Chicago Press.

THE COURT HOUSE BELL .- Many were surrised and at a loss for the reason why this bell should be kept ringing nearly forty minutes lust evening, between the hours of 7 and 8 o'clock, and while Mr. Giddings was speaking in Dear born park. It was generally thought that it was set to work to create an alarm of fire, and thus scatter the multitude who were listening to Mr. Giddings., and many took occasion to cen sure the authoritles for allowing it to be used for such a purpose. We are, however, informed that it was rung for the amusement of Mayor Millikin, who was out on the prairie, listening to it! Wonder if that bell had'nt better be named "Milliken's pet."-Chicago Tribunc.

Post Office Gynnastics.—A correspondent of the St. Louis Herald writing from Mineral Point, Wis., says: The mail leaves St. Louis for this place, it is

opened at Chicago, then sent to Milwaukee, then to Monroe then to Dabuque, then to Mineral Point, then to Darlington, then to Centre, making a circuit of several hundred miles, and requiring some eight or nine days to accomplish the journey, when it might be done in 32 hours; viz: from St. Louis to Chicago, 14 hours; from Chicago to Warren, 12; and from Warren to Darlington in six hours.

DISINFECTING LAMP.—The following simple and economical apparatus is the best we are acquainted with for purifying rooms where any unpleasant effluvia prevails. Any person can fit up the lamp, and, as it is an agreeable method of overcoming had odors in a sick room, we have no doubt it will be generally adopted .-Take one of any of the various kinds of glass lamps-for burning camphene, for exampleand fill it with chloric ether, and light the wick In a few minutes, the object will be accomplish ed. In the dissecting-room—in the damp and deep vaults where vegetables are sometimes stored, or drains allow the escape of offensive gases, in outbuildings, and, in short, in any spot where it is desirable to purify the atmosphere burn one of these lamps. One tube, charged with a wick, is quite sufficient.—Home Gazette.

One Dr. A. B. Mead, announces himself a candidate for coroner at Joliet, "subject to the decision of the friends of the Nebraska swindle." It is an office that the friends of the swindle will stand in need of this fall.—Chicago Jour.

They have got a new plan for the demolition of bed bugs in operation "down east." It is done by steam-one wheel catches them by the nose, another draws their teeth, while a near little piston-rod punches three grains of atsenic down their throats. If you desire to be certain that your eggs are

good and fresh, put them in water. If they kay first on their sides they are good, beyond doubt If the butt turns up they are not fresh. This is an infallible rule to distinguish a good from a bad egg.

It is said that the citizens of Bloomington Ind., have to go nine miles for water. What a ovely time the firemen of that place would have in case of a rousing fire.

WHAT A MOWING MACHINE CAN DO. -- As beng a great week's work, the Springfield Republican states, that captain Parsons, of Northampton, cut, made, and put into his barn, 62 loads of hay during the first week of July, commening on the third, besides mowing for others to the amount of \$40 in the same time. The whole was accomplished with what would be equivalent to the labor of one man, or only 38 days .-He moved in one day, and in less than 9 hours, I acres, producing from two to two and a half tons per acre.

Some of the Catholic priests in Chicago attempted recently to procure the indictment of F. A. Stewart, editor of the Chicago Tribune, for his exposures of their intrigues and intermedling in the politics in the city, &c. Some very grave charges were published against the reverend gentleman, but fortunately, Mr. Stewart was provided with the proof, hence the failure of the jury to find a bill against him.—.It. in particular, I have no hesitation in saying rannot be equaled in the State, both for style and durability, being all mude to order, and in such a manner that I can warrant every article I sell, with the understanding at all times, that if they do not come up to the warrant, they shall be mended free of charge.

GENTLEMEN'S WEAR.

In this line I know beyond a doubt that I can show you a finer assortment and at better prices by twenty-five per cent, than can be found at my of the side shops or Dry Goods stores about town. I want it distinctly understood that I make the BOOT AND SHOE TRADE my WHOLESTUDY, and that I my More, Sell More and know more about the trade, than the whole pile of petty dealers put together. And I know also that I can make it an object for Every Taxmer in Rosel Cannow the trades in Janeaville to buy their Boots and Shoes of me for the more I sell the smaller profits I can sell at.

I want to say a few words to you in regard to my Manufacturing Department, to wit: That I am now en-gaged more extensively in the manufacturing business,

and at the same time sell you a better article than you can get at the-shops, for this reason, which you must all see is a very pulpable one, that in buying my stock east and in such large quantities, I of course save a very large per cent, and thereby can sell at lower prices and at the same time make my profits.

I want to state further that I have secured the services of M. Brownett the state further that I have secured the services of M. Brownett in the same time make my profits.

t want to state in ther that I have secured the servi-ces of Mn. Riverkentan, who has formerly been engaged in the manufacturing business on the west side of the litter, and who is known by every one to be the best manufacturer in the city; and if we don't get you up a better article, both in regard to style and dura-bility, we will forfait our money and our reputation, and I pledge you my word that this is no small forfait.
